WORK EXPERIENCE

Wesco

October 2022 - Present

Senior Developer

Remote

- Improved developer performance by creating a design system workflow with Node.js, Figma Tokens, Style Dictionary and GitHub Actions to grant UI/UX the ability to automatically push design changes from Figma to the developers.
- Onboarded six developers to the team by creating and issuing a developer assessment that simulated Adobe Franklin's use of JSDOM with JavaScript and TypeScript.
- Established a new back-end framework utilizing GraphQL and Cloudflare Workers to reduce performance overhead and decouple dependencies.
- Collaborated alongside an agile team to maintain eCommerce Cart & Checkout functionality across 25+ brands in a multi-brand system.
- Implemented and shipped the companies PunchOut Catalog earlier than the anticipated release date with support for most of the companies major brands.

Credit One Bank

December 2021 - October 2022

Web Engineer II

Las Vegas, NV

- Modernized Credit One's corporate and acquisitions platforms using React, JavaScript, TypeScript and Java built on top of Adobe Experience Manager (AEM).
- Leveraged Adobe Target to create personalized user experiences and perform A/B Testing on all major site components to improve click rate.
- Created internal tooling to automate developer processes and reduce environment setup time from 1 day to 15 minutes by implementing a Command-line Interface (CLI) that interfaced with the companies Artifactory service using Golang, Node.js, Python and Docker.
- Coordinated with the front-end and mobile teams to refactor multiple internal design systems into a single cohesive project that could be compiled to multiple projects using Style Dictionary and GitLab's CI/CD Pipeline.

Independent Contractor

September 2018 - December 2021

Software Development and Brand Consulting

Palm Springs, CA

- Created and maintained landing page sites using Squarespace, along with Shopify and Shopify Headless.
- Developed web solutions using Node.js, Express.js and React for clients that needed more in-depth.
- Maintained a large catalog of client sites and offered monthly maintenance and enhancements.

EDUCATION

College of the Desert

June 2018

A.S Computer Information Systems

Palm Desert, CA

DevOps Engineering Foundation (DOEF) Certification

November 2022

Credential ID 23694271

Remote
